Project funding (if applicable)

3. Sample information

Target population

Survey languages

☐

German (DE)

☐

French (FR)

☐

Italian (IT)

Quotas

☐

Language region

☐

Age

☐

Gender

Other quotas (please specify)

4. Data analysis

Data analysis method (maximum 150 words)

5. Research ethics

Will the survey address particularly sensitive topics or data (e.g., health data)?

☐ Yes ☐ No

If yes, specify which information will be collected and how psychological distress will be minimized (e.g., trigger/content warnings, options to skip questions, or information on available support).

6. Data management

Explain how the survey data will be stored, accessed, processed, retained and deleted, including the measures taken to protect confidentiality.

Note: DemoSCOPE does not provide personal information that would allow individual survey participants to be identified.
